

Asetka srl is a thirty years old factory that si specialized in the metal field producing galvanized or pvc coated panels and rolls used mainly in the construction industry.

Asetka srk is a dynamic and enthusiastic company and for these reasons it has an important role in the competitive market.

Thanks to the attention to client's requests we can always improve the quality of our products and satisfy all needs of costumers.

Our products are selt to small, medium and big companies especially for construction industry, agriculture and industrial works.

Our production procedures includes strict controls which guarantee high quality products and the observance of technical features thanks also to the competence and the experience of our workers.

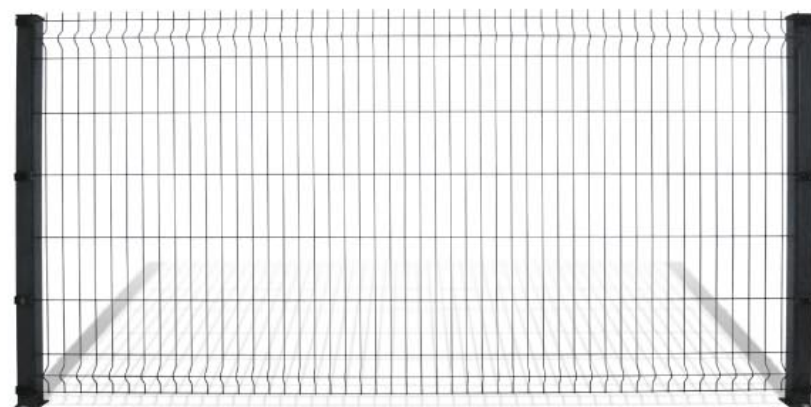

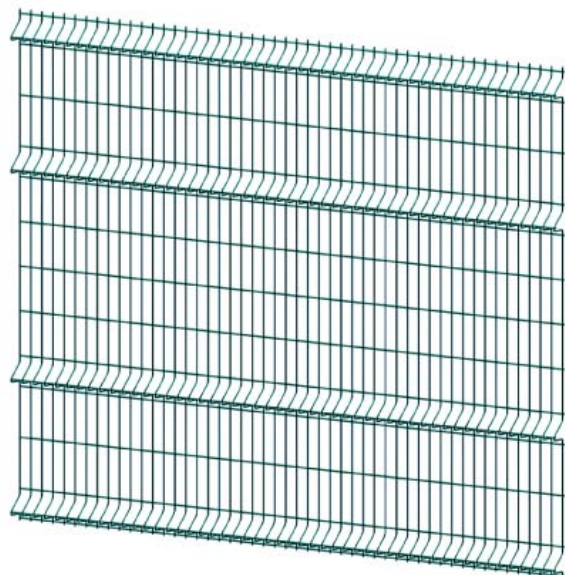

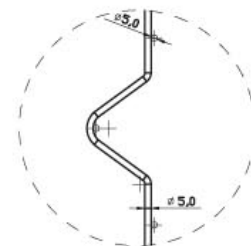

We are always looking for new products, new raw materials of better quality and new technologies to satisfy in a better way you requirements.

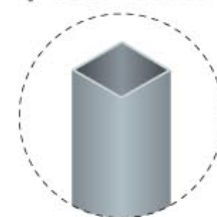

# Curvy welded Fences

## Venere 2.000 - 2.500

Polyester coated curvy welded mesh fences with folds and sharp points on top.

posts Marte
